## Y2 Homework

Dear Parents/ Carers,

In preparation for our Year 2 children's transition to the Juniors, we are going to start to set different homework for our Year 2 children from **Monday 15<sup>th</sup> January.**

This will begin with a reading comprehension where the children will have a text to read and some questions to answer based on the text. Please encourage your child to read the text first, read the question carefully and try to find the answer in the text.

For the time being, Maths homework will continue to be set on My Maths. In the near future, we will send home a **calculation sheet.** The calculation sheet will be Maths homework for that week instead of an activity on My Maths. This will start with some questions on addition and will build up to subtraction, multiplication and division. There will be 4 - 5 questions on the sheet and we will send home a help sheet for you, so you know how to support them with their Maths homework.

The skills your child will be asked to practise in their homework, are skills we are also working on in class.

**We will send homework home each Monday in a homework folder. Please return this to school the following Monday so we can send a new set of homework home.**

Thank you for all your support and if you have any problems, please let us know.

Mrs Hallsworth and Miss Owens 😊
