

# ST BERNADETTE'S RC PRIMARY SCHOOL

**ART & DESIGN CURRICULUM**

*St Bernadette's RC Primary School*  
*Art & Design Curriculum*

**Intent**

At St Bernadette's RC Primary School, we aim to provide all children with a broad & balanced curriculum which prepares them for life beyond primary education. We believe that high-quality Art & DT lessons will engage & inspire children to think innovatively, develop creative procedural understanding & exercise their creativity & imagination. The children are taught to combine their art & design skills with knowledge & understanding in order to design & make a product that solve real & relevant problems within a variety of contexts, considering their own & others' needs wants & values. During art & design technology lessons, we teach children the language skills they will need to be effective communicators. We actively encourage our children to be critical thinkers, forward planners & effective problem solvers. We also teach our children to work on their own, as capable individuals, & as a valued member of a team. Resilience is an important element of our art & DT, & whole school, curriculum & our children are encouraged to 'innovate' & take risks.
